Access To
Over 100 Million
Shoppers

.....

What If...your website could reach over 100 million shoppers? What if those shoppers could purchase digital content, goods and services using a payment method that is easy to use and interest free, offering shoppers more buying power. What if you could reduce the security and credit concerns of your customers?

The Answer is Bill2Phone.

Bill2Phone is an innovative, convenient and secure payment solution that gives your business access to over 100 million consumers with just one click.

A new payment option that allows merchants to reach more online shoppers who are concerned about security and credit and are looking for ways to consolidate bills, without fees or interest charges.

Optimize site conversion, increase sales, offer your customers more payment options and flexibility.

Eliminate the hassles of using a credit card online, no more tedious log-ins or passwords to remember, no lengthy signup.

Increase
Sales

Secure.
Easy.
Responsible.

Here's How It Works

Shoppers select digital content, goods and services from your website and pay for those charges on their home phone bill.

Bill2Phone is easy to incorporate into your online shopping cart with easy integration and sophisticated authorization and fraud controls.

Offers merchants extensive reporting tools, real time views into each transaction and BSG's experienced and knowledgeable customer support staff, available to guide merchants swiftly and accurately through any question.

Bill2Phone brought to you by BSG®. Billing Services Group has been providing powerful, innovative payment solutions for over 20 years. For more information, please visit: bsgclearing.com
